  PowerBI, Tableau

Work Experience

Junior QA Specialist
Scandiweb
Aug 2024 - present

- Initiated, Incorporated and Facilitated Test Automation of instances with Cypress using JavaScript. Total regression testing time reduced from *±75 mins* to *±12 mins*.
- Comprehensive front-end and back-end testing, including API testing with Postman, regression, and integration testing.
- Developed and managed detailed test cases and scripts using TestLodge and Cypress.

Business Data Processing Specialist Intern
MSC Shared Service Center, Riga
Nov 2022 to Aug 2023 (9 months)

- Configured and maintained MACRO in Excel VBA to support and automate internal applications, resulting in improved efficiency and reduced manual effort up to *20%*.
- Conducted Business Analysis to identify and address process inefficiencies in tariff configuration using SQL and C#
- Coordination and Communication with internal teams and international clients for assisting and supporting

Data Analyst Intern
Brainnest, Germany
Sep 2022 to Oct 2022 (2 months)

- Hypothesis Testing, Analysis of Variance, Descriptive Analysis, Correlation, Linear Regression, Exploratory Analysis
- Hands-on working with IBM SPSS and Excel

Certifications

- LambdaTest Software Testing Professional Certificate
- Cypress UI Test Automation
- Google Data Analytics Certificate
- SQL for Data Analysis
- Business Process Improvement

Preparing for ISTQB CTFL Certification

Educational Background

Master in Business Informatics
Institution: Rīgas Tehniskā Universitāte, Latvia
2022 - 2024

Thesis: Method to detect root causes of defects discovered during software testing

Bachelor in Power Engineering
Institution: Anna University, India
2016 - 2020

Volunteer Work and Collaboration

Volunteer in Covid19 Customer Data Analysis
Soreng Primary Health Center, Sikkim
May 2020 - June 2020
I processed and maintained customer data along with surveys and provided informed decision making for effective inventory management.

Enterprise Architecture along with Business Process Modeling
Artistico Clothing Brand
Aug 2023
I created a full fledged EA (as - is) and (to - be) along with the BPM showing the gaps for the business and collaborated in streamlining the internal processes, minimizing the bottlenecks while eradicating the unwanted.

Decleration

I, hereby, conclude that all the information provided in this document is true and bear full responsibility.
